### ***Reasons for Allowance***

1. The following is an examiner's statement of reasons for allowance: The prior art of record does not disclose or suggest "an angular velocity sensor comprising a tuning fork for outputting a signal responsive to angular velocity, a second rubber body in contact with a top face of said first cover, a first rubber body having a top face in contact with a bottom face of said first base wherein the first rubber body and the second rubber body are compressed without contacting the tuning fork and held by the top face of said supporting plate and an inner ceiling of said second cover" as recited in claim 1 and as argued by applicant. These limitations are neither taught nor made obvious by the prior art of record.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jacques M Saint-Surin whose telephone number is (571) 272-2206. The examiner can normally be reached on Monday-Friday.
